

## Compare and Contrast Paragraph

The difference between The Chinese Origin Story and The Egyptian Origin Story is that they have different Gods they believe that created the humans. Another difference is that Nuwa (God in the Chinese Origin Story) creates humans by hand and Ra (God in the Egyptian Origin Story) makes them automatically by tears of joy. Also the stories take place in a different setting. Mostly their stories are so different from each other.

The same thing between The Chinese Origin Story and The Egyptian Origin Story is that they all have a peaceful story on making humans unlike the Sumer and the Greeks. Sumer and the Greeks had some arguments like war and stealing. Also they had the same idea for the conflict because Nuwa and Ra were both lonely. I bet the stories had lots of other stuff I didn't catch.
